Cheers to 25 Years!

It's been quite a journey and we're so thankful, excited, and proud to be a part of this community that has flourished over the last 25 years. From humble beginnings of just 60 exhibitors in 1997 to the current bustling international exhibitor representation of 1,000+ ingredient & service provider innovators, SupplySide West represents something bigger than the show floor we all know and love. If you've been a part of this journey along the way, thank you for helping us carve out our corner of this industry. If this is your first time here—cheers! We welcome you as an old friend and look forward to having you grow with us.

Sustainability

SupplySide West & Food ingredients North America is striving to become a more sustainable event. We know sustainability is increasingly important to our visitors and exhibitors, as well as to our community as a whole. Operating the show gives us many opportunities to improve our impacts environmentally, socially and economically here in Las Vegas. Our team is driven to make our event more responsible and to also play a key role in helping our market improve its own sustainability.

[TOP 3] Sustainability Efforts This Year:

1 Big news: SupplySide West is pursuing CarbonNeutral® Event Certification for the first time ever! Going carbon neutral means that we continue reducing our greenhouse gas emissions as much as possible, and compensate for the remaining carbon emissions our show emits (from travel, hotel stays, energy-use, waste, etc.) through the purchase of high-quality ICROA-approved carbon offsets.

What is a CarbonNeutral® Event Certification?

A designation that demonstrates our event has achieved carbon neutrality in line with the CarbonNeutral Protocol. This certification is administered by Climate Impact Partners, and is a global standard managed for over 20 years to deliver clean, conclusive, and transparent carbon neutral programs. The carbon footprint of our event is verified by a third-party company, Bureau Veritas. This initiative is part of the FasterForward - Faster to Zero commitment to becoming completely carbon neutral as a business by 2025 by our parent company, Informa.

CarbonNeutral® Event Sponsor

2 It's estimated that 8-9 million metric tons of plastic end up in the ocean every year –the equivalent of one garbage truck of material every minute. Because of this, **we've partnered with our Official Water Sustainability Sponsor, Aker BioMarine, to reduce the carbon and waste generated by single-use water bottles at this year's show.** SupplySide West attendees can stay healthy and hydrated by bringing their re-usable water bottles and filling them at sustainable water stations throughout the Expo Hall. You can find the locations of these water stations on the Expo Hall Map in this book as they are marked by this icon: 

Thank you for choosing to re-use in an effort to keep our oceans plastic-free. These water stations are provided by our Official Water Sustainability Sponsor: Aker BioMarine.

Official Water Sustainability Sponsor

AKER BIOMARINE

3

Taking a look at our waste, we have also partnered with Terracycle for lanyard and badge recycling. When you place your lanyard and badge in one of the recycling bins, they will be sent to Terracycle, where they will be sorted, cleaned, and separated by material. Their warehouse then organizes and prepares the items for processing, and each part of the badges and lanyards are treated appropriately (metals are smelted into new products, plastic materials are shredded into small pieces and converted into pellets and other raw formats). Your badges and lanyards are saved from landfills and transformed into new products! You can find these lanyard and badge recycling centers at various locations on your way out of the Expo Hall.

Interested in learning more about all of our sustainability initiatives?

Visit our Sustainability Kiosk in the Bayside Foyer!

EverSweet[®] + ClearFlo[™]

Stevia Sweetener + Natural Flavor

A clear breakthrough in stevia.

Discover EverSweet[®] stevia sweetener + ClearFlo[™] natural flavor:

unique, stevia-enhancing
technology for deeper
sugar reduction,
flavor modification,
cleaner sweetness and
better solubility.

*Taste the difference
at booth #4254.*
